BUSINESS REVIEW AND OUTLOOK

Trustco Group Holdings Ltd, a diversified investment entity headquartered in Windhoek, Namibia, continues to deliver strong investment performance, driven by its long-term approach and ability to navigate short-term challenges. With a well-balanced portfolio spanning the insurance, real estate, commercial banking, micro-finance, education and mining sectors, Trustco has consistently generated above average returns.

Trustco's investment portfolio has maintained an average weighting of 38% in US Dollar-based assets, while the remaining 62% is invested in Namibian Dollar-based assets, providing a stable foundation for growth. Trustco's success is further bolstered by the support of a diverse range of coinvestors, including individuals and institutional entities from Namibia and abroad.

Namibia, with its rich natural resources, strategic infrastructure, and stable business environment, provides an attractive backdrop for Trustco's investments. The country's recent discoveries of oil and gas reserves, lithium deposits, and rare earth minerals, combined with its green hydrogen projects, position it for significant economic growth. The Namibian government's commitment to prudent fiscal policies, social progress and sustainable development further enhances the country's investment appeal.

The country's economy has demonstrated resilience, expanding by 4.2% in 2023 and projected growth of 3.7% in 2024, following a strong recovery from the COVID-19 pandemic. Trustco is well-positioned to capitalise on these opportunities, driving long-term growth and returns for its investors.

During the period under review, Trustco has seen an increase in its Net Asset Value by 9.5%, moving from NAD 1.15 billion to NAD 1.26 billion. The net asset value per share was 128.2c, compared to 117.1c at the prior year-end. The Group's profit for the period was NAD 110 million, compared to losses of NAD 250 million in the previous corresponding period. This resulted in basic and headline earnings per share of 11.17c, compared to a basic and headline loss per share of 25.38c in the previous corresponding period. NAD 130 million of the current period earnings are due to a debt restructuring concluded with a selection of Trustco's international funders during the reporting period.

PORTFOLIO REVIEW

As of February 2024, Trustco's portfolio valuations showed mixed performances across various sectors. The micro-finance portfolio experienced a decline of NAD 90.7 million, while the commercial banking and education portfolios also decreased by NAD 1.3 million and NAD 20.7 million, respectively, as higher interest rates are expected to continue for an extended period. The insurance portfolio recorded a decline of NAD 50.9 million, primarily due to market volatility in addition to the higher interest rates.

On the other hand, the real estate portfolio showed an increase of NAD 70.7 million, driven by the growing demand for prime real estate in Namibia. The mining portfolio also saw a rise of NAD 154.5 million, attributed to the sector's resilience and growth prospects as its mining operations increased commercial production volumes for the foreseeable future, as well as a weaker exchange rate.

Adjustments were made to the discount rates across various sectors, reflecting changes in market conditions and sector-specific factors. The micro-finance portfolio saw a slight increase in discount rate to 21.04%, while commercial banking and mining experienced decreases to 26.18% and 28.68%, respectively. The education, insurance, and real estate portfolios saw modest increases in discount rates to 18.82%, 20.31%, and 18.03%, respectively.

SUBSEQUENT EVENTS

Trustco has entered into an agreement with Riskowitz Value Fund (RVF), a US-based fund and long-term shareholder, to access up to USD 100 million in hybrid capital. This proposed transaction aligns with Trustco's vision and enables Trustco to seize strategic investment opportunities across its current investment entities as well as new prospects.

Additionally, Trustco has announced the acquisition of an additional 11.35% interest in Legal Shield Holdings Limited (Legal Shield), increasing its holding to 91.35%. This transaction will strengthen Trustco's investment footprint in Namibia's insurance and real estate sectors, both poised for significant growth post-pandemic. Trustco believes that property valuations are set to increase in the near future, as evidenced by the trends observed during this reporting period.

The Trustco board is also finalising the contract for the debt-to-equity conversion with Next Capital, as previously announced. This transaction aims to convert NAD 4.4 billion

debt and equity liabilities from the statement of financial position, into equity.

Full details will be shared with shareholders once the terms are finalised, and all these transactions will follow the required full circular process.

DIVIDENDS

The board of directors has decided to defer the declaration of any 2024 interim dividend. The board is optimistic that once the short-term and to-be-announced transactions are implemented, the board will be in a position to reconsider its dividend payment policy.

FUTURE OUTLOOK

The board of directors reports that Trustco's future outlook remains positive, driven by its diversified portfolio and Namibia's economic growth prospects. Trustco is positioned to capitalise on investment opportunities and overcome short-term challenges. Its agreement with RVF and acquisition of an additional interest in Legal Shield demonstrate its commitment to creating long-term value for investors.

The board remains committed to a prudent and disciplined approach to investment management, creatively navigating evolving market dynamics. The board will continue to leverage its expertise, partnerships, and market insights to manage challenges and capitalise on opportunities, driving success and value creation for all investors.

11. FAIR VALUE

The fair values of financial assets and liabilities are not materially different from their carrying amounts since the interest receivable/payable is either close to current market rates, or the instruments are short-term in nature.

12. DIRECTORS

There have been no changes to the directorate for the period under review.

13. GOING CONCERN

The interim financial results have been prepared on the going concern basis which considers the continuity of normal business activities, the realisation of assets and the settlement of liabilities in the normal course of business. The board of directors, as part of their responsibilities, annually assesses the going concern of the group. As part of their assessment, the board of directors considered working capital requirements, availability of resources and reserves either from existing investing activities or further borrowings, available information about the future, financial impact of ongoing litigation, the possible outcomes of planned events and the responses to such events and conditions that would be available to the board.

The board of directors has, *inter alia*, considered the following specific factors in determining whether the company and group is a going concern for the foreseeable future:

- Current liabilities of the group exceed current assets as at 29 February 2024 by NAD 1 671 million, while total assets exceed total liabilities by NAD 1 263 million;

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Whether the group has sufficient cash resources from investing activities which is readily available, in order to settle its creditors and maturing liabilities as and when they fall due in the foreseeable future, whilst continuing to maintain its operating abilities for the foreseeable financial period;
- Whether there is any significant pending litigation that will threaten the going concern status of the group;
- Assessment of the existing economic conditions related to the various investees and whether the possibility exists to sufficiently scale said operations in the foreseeable future to provide additional cash resources; and
- Assessment of the solvency and liquidity position of the company in accordance with the Companies Act.

Following the above assessment, the board considered the undermentioned detailed conditions to also be significant in addressing the specific factors impacting its going concern assessment:

- Its large-scale mining operation to increase its commercial production capability to 30 thousand carats per month in steady state production in the next 18 months;
- conversion by the founding shareholder of NAD 4.4 billion debt and equity liability from the statement of financial position;
- successful negotiations with remaining international lenders in its education lending investee in order to conclude the restructuring of the current debt position of that investment entity;
- successful resolution of various ongoing legal matters in order to mitigate the potential liquidity impact thereof; and
- successful conclusion of planned equity investments to fund high-growth investees.

The board of directors has evaluated the actions noted above to assess the going concern assumptions and the board is of the opinion that the actions can be successfully implemented for the company to continue as a going concern.

The directors are not aware of any other matters that may impact the group. The directors are also not aware of any material noncompliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the group. Following the above assessment, the board of directors continues to adopt the going concern basis of accounting in preparing the interim financial results.

14. EVENTS OCCURRING AFTER THE REPORTING PERIOD

Additionally, Trustco has announced the acquisition of an additional 11.35% interest in Legal Shield Holdings Limited (Legal Shield), increasing its holding to 91.35%. This transaction will strengthen Trustco's investment footprint in Namibia's insurance and real estate sectors, both poised for significant growth post-pandemic. Trustco believes that property valuations are set to increase in the near future, as evidenced by the trends observed during this reporting period.

The Trustco board is also finalising the contract for the debt-to-equity conversion with Next Capital, as previously announced. This transaction aims to convert NAD 4.4 billion debt and equity liabilities from the statement of financial position, into equity.
